

ADMINISTRATION GUIDELINES

1. Remove cap from TF ENFit pouch
2. Attach TF ENFit pouch directly to patient's enteral feeding tube, or the drug port on their enteral giving set
3. Gently squeeze the pouch to deliver the contents

Note: We recommend flushing the patient's feeding tube with water before and after the addition of ProSource TF ENFit.

PROSOURCE TF ENFIT INFORMATION FOR NURSES

INTRODUCING PROSOURCE TF ENFIT

Nutrino, one of the UK's leading clinical nutrition companies, are delighted to introduce ProSource TF ENFit - the world's first ENFit compatible liquid protein. This leaflet demonstrates the benefits that the product offers you, as a nurse who manages patients requiring enteral tube feeding.

QUESTIONS AND ANSWERS...

• What is ProSource TF ENFit?

ProSource TF ENFit is a unique product that comprises of a very concentrated liquid protein (ProSource TF), in a pouch that has an integrated ENFit connector. This means that all you need to do to deliver the protein to a patient being enterally tube fed, is to connect the pouch directly to their feeding tube and squeeze.

• How does ProSource TF ENFit help my patients?

ProSource TF ENFit makes it easier than ever to deliver high quality protein alongside other nutrition they may be receiving. This makes meeting protein requirements more achievable, and thus helps to improve outcomes.

• How does ProSource TF ENFit help me as a busy nurse?

ProSource TF ENFit removes the need to decant the product first, or put into a syringe to administer - this saves valuable nursing time. The closed ENFit system means that it is safe and clean to use, with no chance of misconnection, or spillage. Furthermore, this ease and simplicity means that you can administer the protein at any time of the day or night.

• What is in a pouch of ProSource TF ENFit?

Each pouch of ProSource TF ENFit contains 60ml of the liquid protein, ProSource TF. ProSource TF is a very high quality, collagen-based protein that is complete in all essential amino acids, at levels that result in 100% digestibility - meaning that when you give your patient ProSource TF, you are giving them a protein that works effectively and efficiently.

• What is the shelf life of ProSource TF ENFit?

ProSource TF ENFit has shelf life of 18 months unopened. The expiry date is clearly marked on the outer box and on the back of each pouch.

• Where can I find out more?

A full product data card, product videos and further product information is available on our website.
