

# INCREASE FIBRE INTAKE WITH EASE

**NOW  
ACBS  
APPROVED FOR  
ORAL & ENTERAL  
USE**

HyFIBER is a water thin, liquid high fibre supplement with fructooligosaccharides (FOS) that contains 12g soluble fibre in each 30ml serving.

Designed for the dietary management of bowel transit disorders and presented in a mild citrus flavour, HyFIBER is ready to use and can be taken orally, or administered alongside an enteral feed, via an enteral feeding tube.

Now ACBS approved for oral and enteral use, HyFIBER is available in handy multi-serve bottles as well as single-serve sachets.

**In short, we've made increasing your patients' fibre intake easier than ever.**

*Great product! - allows me to tailor the amount of fibre I give to my tube-fed patients, without compromising their feed.*

---

*HyFIBER has been an absolutely fantastic product to use with my learning disability patients to treat constipation. I have had success with numerous patients who have had a poor response to laxatives for years.*

**UK Nutrition Professional Feedback**

# Why choose liquid HyFIBER for your patients?

HyFIBER has a number of key benefits to consider when managing your patients' bowel transit disorders...

## 12g soluble fibre in each 30ml serving

Allows you to meet your patients' daily fibre requirements with ease

## Ready-to-use liquid - suitable for enteral or oral use

No pre-mixing is required. HyFIBER can be taken neat, mixed easily into other foods or drinks, or administered down an enteral feeding tube without the risk of tube blockage

## Available in single use sachets or multi-serve bottles\*

Provides increased levels of flexibility and convenience for you and your patients

## Contains FOS

Fructooligosaccharides bypass the small intestine, reaching the large intestine intact and forming short chain fatty acids which help to promote a healthy bowel

## Mild citrus flavour

HyFIBER is flavoured to aid compliance and make oral consumption easier for the patient

\*887ml bottles = approx. 29 servings

Our online **Resource Centre** contains a variety of health professional and patient information to support use of the product

# How to Use HyFIBER®?

HyFIBER is a ready-to-use liquid for administration via an enteral feeding tube. HyFIBER can also be taken orally or mixed into hot or cold foods and drinks.

## Enteral Tube Feeding

Flush feeding tube with 30ml of water. Infuse HyFIBER via an enteral feeding tube using a syringe. Once infused, flush tube with 30ml water and then continue enteral tube feeding as prescribed.

## Oral use

Can be taken neat or mixed easily into other foods or drinks.

## Shelf Life and Storage

HyFIBER has a shelf life of 24 months from date of manufacture. Store unopened at room temperature (not exceeding 25°C).

**Sachets:** Once opened use immediately.

**Bottles:** Once opened, make a note of the date on the label. Discard three months after opening.
