Everything is connected

1. PDCAAS of 100%

2. Can offer additional cost benefits through reduction in the need for ancillaries and savings in administration time.

Everything is connected

A unique amino acid profile that guarantees your patients a highly effective protein, coupled with an easy-to-use delivery system which saves on both nursing time and ancillary costs, makes ProSource TF ENFit an unrivalled enteral protein.

PROTEIN QUALITY

**20g
protein**

- Provides maximal stimulus for MPS (Muscle Protein Synthesis) ^{1,2}
- One bolus ensures protein intake is within the “window of opportunity” to induce MPS ^{3,4}
- Optimises protein provision when opportunities to feed may be limited ⁵

**PDCAAS
of 100%**

- Essential amino acids (EAA) present at the right levels – providing 100% of the IOM reference pattern for an ideal protein ⁶
- Correct EAA levels are important in addition to Leucine to support MPS ^{7,8,9}
- High BCAA concentration

**1.1g of
Leucine**

- Similar levels are shown to stimulate robust MPS ¹⁰

Review Article - Meeting Protein Requirements in Critical Care Using an ENFit Compatible Modular Protein Supplement

EASE OF USE

Direct ENFit connection

- **Simple:** connects directly on to an ENFit connector or giving set
- **Safe:** direct ENFit connection removes the need to decant – reducing cross-contamination risk ¹¹

VALUE

Saves time and costs

- Mitigates the need for additional ancillaries such as single-use syringes or reciprocals for decanting
- Speed and ease of administration can save valuable nursing time
- One 20g pouch vs two 11g doses may offer savings in dispensing costs and reduce waste

- ✓ Unique ENFit compatible pouch
- ✓ 20g TF protein in 60ml volume
- ✓ Delivers highly effective protein
- ✓ Very low electrolytes & osmolality

Product Composition

Composition	Amount per serving (60ml)	Amount per 100ml
Energy	76kcal 318kJ	127kcal 530kJ
Fat	0.12g	0.2g
<i>of which saturates</i>	0.06g	0.1g
Carbohydrates	0.33g	0.55g
<i>of which sugars</i>	0.33g	0.55g
Fibre	0.2g	0.33g
Protein	20g	33.3g
Minerals		
Sodium	37mg (1.61 mmol)	61.7mg (2.68 mmol)
Potassium	13mg (0.33 mmol)	21.7mg (0.56 mmol)
Phosphorus	2.6mg (0.08 mmol)	4.3mg (0.13 mmol)
Calcium	3mg (0.08 mmol)	5mg (0.13 mmol)

Request a **FREE** sample pack of any Nutrinovo product – direct to you or direct to your patient.

- The majority of sample packs are despatched within 24 hours and we aim to despatch 100% within 48 hours, meaning you or your patients are able to try any nutrinovo product when you need it most.
